	<p>Read the following passage and answer questions from 1 to 10</p> <p>Wildlife conservation has become a global priority as many animal species face the threat of extinction. Factors such as habitat loss, poaching, pollution, and climate change are accelerating the decline of biodiversity worldwide. Conservation efforts, including establishing wildlife sanctuaries, national parks, and protected reserves, aim to preserve natural habitats and protect endangered species from further harm.</p> <p>Educating the public about the importance of biodiversity is crucial in building support for conservation initiatives. Additionally, organizations are promoting sustainable practices, such as reducing plastic usage and preventing deforestation, to create an environment where wildlife can thrive. By understanding the interconnectedness of ecosystems, people can take steps to reduce their impact on the planet and help ensure a future for all species.</p>
